

**Marc E. Bromstad, Managing Director**

Marc specializes in corporate strategy development and implementation, business process redesign and improvement, and large program management. Prior to joining Markstein Consulting, Marc consulted with Galt & Company, where he helped Global 1000 companies identify, develop, and implement their highest-value strategic opportunities. Before Galt, Marc worked with Regions Financial Corporation, where he developed and implemented retail and small business banking strategies. Prior to working at Regions, Marc consulted with Computer Sciences Corporation, where he led large implementation and business process improvement engagements for Fortune 1000 companies.

Marc has completed consulting efforts in the financial services, consumer products, high tech, manufacturing / distribution, and retail industries. Marc consistently delivers growth, savings, and other project milestones on time and within budget constraints.

Marc earned his Bachelor's degree in Business Administration with majors in Quantitative Business Analysis and Management Information Systems from Baylor University in Waco, Texas.
